*"Ivey's MSc acted as the tool kit that allowed me to start painting my international career canvas. Ivey's case-teaching method along with the program's extensive international opportunities are the two qualities that I appreciated most about the MSc. Cases helped me develop the business acumen required to thrive in today's global corporate mindset, while my experiences of working in India and studying abroad at host CEMS schools awarded me with the chance to learn from different cultures and build relationships worldwide."*

*"The MSc program pushes you out of your comfort zone into situations that enable both personal and professional growth. Having the benefit of those experiences, as well as the connections with the people you meet throughout the program, is invaluable at the beginning of your career. The MSc program, specifically the internship in India, allowed me to experience working in an entirely new setting where the environment was always in flux. This has been an asset as I entered the workforce and have needed to adapt to rapidly changing circumstances."*
