MSc in Management

Business Analytics
International Business
International Business + CEMS MIM
Ivey’s 16-month MSc Program is a transformational experience for recent grads, like you, who want to hone their skill sets, develop their leadership abilities and kickstart their careers. Choose a specialization that will build on the foundation of your undergraduate degree and give you the deeper knowledge and practical experience that will set you apart.
The Ivey MSc addresses the need for a new brand of manager — experts who understand what defines a business best practice and can translate that knowledge into action.

Are you...

· A recent university graduate with less than two years of work experience?
· Looking to develop specialized knowledge and new skill sets?
· Seeking real-world experiences to expand your career prospects?

What is an MSc?

Ivey’s MSc is a Master of Science in Management; one common misconception is that this is a traditional science program. The MSc in Management incorporates deeper levels of understanding about management practices through applied research and analysis, which is where it derives its scientific lean.

Ivey’s direct-entry masters program does not require full-time work experience. This program is offered in three streams:

1. BUSINESS
   ANALYTICS

2. INTERNATIONAL
   BUSINESS

3. INTERNATIONAL
   BUSINESS + CEMS MIM
## WHAT DOES A COMPETITIVE MSc APPLICATION INCLUDE?

### Business Analytics
- An undergraduate degree in engineering, computer science, mathematics, statistics, commerce, or economics with emphasis on quantitative analysis.
- Demonstrated course work in the following: Calculus, Linear Algebra, Statistics, Computer Science with a programming focus.
- While a GMAT or GRE score is not required, it may help strengthen your application (may be waived for Canadian Undergraduate STEM degree holders).

### International Business
- Demonstrated readiness to enter a global academic and professional experience as proven through your references, undergraduate experiences, and admissions interview.
- A competitive GMAT or GRE score (may be waived for Canadian undergraduate business degree holders).

### International Business + CEMS MIM
- Demonstrated readiness to enter a global academic and professional experience as proven through your references, undergraduate experiences, and admissions interview.
- A high level of fluency in a minimum of two CEMS recognized languages, one of them being English.
- A competitive GMAT or GRE score (may be waived for Canadian undergraduate business degree holders).

### Additional Requirements for All Streams:
- B average achieved during the two most recent years of academic study.
- Two reference letters, at least one from an academic source.
- A professional resumé.
- A strong level of English proficiency (IELTS minimum score of 7 or TOEFL minimum score of 100).
- An undergraduate degree received within the past two years.
Ivey’s Experiential Learning

The Ivey MSc Program, like other Ivey programs, is committed to Case-Method Learning. It’s not just teaching, it’s a powerful decision-making approach that becomes ingrained into how you operate. Case learning is complemented by academic readings, guest speakers, corporate-led workshops, consulting projects, real-world labs, and skills seminars.

Ivey Labs – Real-World Experiences

As an Ivey MSc student, you will participate in an eight to 10-week real-world work experience, also known as an Ivey MSc Lab. Each of the three MSc streams has its own lab, which will provide you with a professional placement where you can apply and complement your in-class learning.

Ivey Essentials

This course focuses on business essentials: Accounting, Finance, Leadership, Marketing, Operations and Strategy. Students will be introduced to Ivey’s high engagement case-based learning methodology. The course is designed to aid students in understanding materials for their courses throughout the program.
Why an MSc in Business Analytics?

- Translate real-world data into actionable insights for business decision-making
- Enter industries that have a growing demand for analytically driven individuals
- Differentiate yourself with a set of identifiable and valuable skills

Organizations today have access to vast amounts of data. There is a shortage of talented individuals with both the technical knowledge and strategic acumen to make data-based decisions. Ivey consulted with organizations to make sure that the Ivey MSc program in Business Analytics is designed to address this talent need.”

Federico Berruti
Associate Partner, McKinsey & Company

The Ivey Analytics Lab

Exclusively offered to MSc in Business Analytics students, the Ivey Analytics Lab is an eight to 10-week summer work experience that provides you with the opportunity to work with a firm in a data-driven role. Before the placement experience, you will work with a faculty supervisor to determine a work plan and end-of-experience deliverable that will be graded.
Why an MSc in International Business?

- Develop the knowledge and skills necessary to work for a multinational firm
- Open up international career opportunities
- Develop a cross-cultural aptitude to better lead in an international environment

NHH Dual Degree

In a world that is increasingly interconnected, there is a great demand for professionals with cross-cultural aptitude. The Ivey MSc in International Business is designed to develop global cosmopolitans who can contribute internationally and lead in a multicultural environment.”

Andreas Schotter
Assistant Professor, General Management
Ivey Business School

The Ivey Global Lab

The Ivey Global Lab is an 8-week summer work experience where you will be immersed in the business and cultural environment of an emerging economy like India, Nicaragua or Vietnam, all while working with local firms. You will participate in consulting style experiences inside a company with assigned teams. The clients, in the normal course of their business, will evaluate most deliverables in this course.
Why an MSc with the CEMS MIM designation?

- Develop the knowledge and skills necessary to work for a multinational firm
- Widely acknowledged as the best passport for an international career
- A guaranteed one or two terms abroad at one of our CEMS academic partner schools
