The Ivey Brand

Visual Identity is a sharply functional thing. Not only must it serve as the focal point of a communication design system, for digital applications, for stationery, for reports and marketing materials, it is often the only medium through which a large sector of the public will identify our school and its offerings.

The design of a visual identity thus becomes an undertaking of the most exacting acuity. It should be distinctive and memorable. Furthermore, it should be practical and easily adapted to a variety of applications. It should be reproducible on the web, in print, in one or two colours, large and small. Its purpose is to identify appropriately, to lend authority, to inform, to persuade and to help create the right visual climate in which we can operate and excel.

We have consolidated the Ivey Visual Identity. We added the Western University shield. We have refined letterforms. We now have a more succinct name: Ivey Business School, and we have created a clear hierarchy of brand architecture through a detailed typographic system. In the overall system, all graphic elements, the shield, typography, images and colour work together to reinforce the Ivey Identity and build a bold, and distinct image for our School.

The goals of the Ivey Visual Identity:

• To communicate more powerfully through a consistent representation of the Ivey brand
• To create a clear association with Western
• To look contemporary and relevant to leverage the brand equity in the Ivey name and wordmark
• To save time and resources by streamlining the design process of communication materials

Above all, our new visual identity will bring focus and understanding of our promise to be one of Canada’s, and the world’s, pre-eminent business schools.
1.1 The Logo

The Logo
The Logo is the most important visual components of the brand identity. Its function is to clearly and strongly identify our School. Its typography and colour are unique. Used consistently it will be associated with excellence and all the qualities our institution represents.

This page shows the Logo, a combination of the wordmark, and Western shield.

Wordmark
The custom Ivey Wordmark is a refinement of the previous iteration.

The Logo is a custom element and should only be reproduced from authorized electronic artwork. Any substitution or alteration of the Identity is not acceptable.

The Watermark and the transparent white version of the Logo are only for use when a white background is not an option. A white background is always required for the full colour or positive version.

1.2 The Full Signature

The Full Signature incorporates the name of the Faculty along with the descriptor and locator. The Full Signature should be used in formal context and outside of Canada when it is important to clarify that Ivey is the Faculty of Business at a university and that university is Western University in Canada.
1.3 Simplified Shield

To ensure clear legible reproduction of the shield at very small sizes, Ivey has a “Simplified Shield.”

The Simplified Shield should be used when the shield is smaller than 8mm wide. Refer to page 11 for minimum size specifications.

The Simplified Shield must always accompany the “Ivey” wordmark. It must never be used on its own.

The Simplified Shield must never be altered. Redrawing or manipulating the Simplified Shield compromises the integrity of the Ivey brand.

The Simplified Shield is recommended for use when embossing, debossing, or for soil stamping, such as on stainless steel water bottles or signs and other ephemera.

Use of the Simplified Shield requires approval from Ivey’s marketing department: marketing@ivey.ca
1.4 One Colour Use

The Identity should only be used in black where colour is not permitted. The Identity in black can be used on stainless steel water bottles or wayfinding and signage and other ephemera, as well as, exceptional print circumstances (newspapers, black and white digital reproduction, etc.)

The reverse version of the Identity should be used in white.
1.5 White Box Use

In cases where the colour Identity needs to be used on an image, it should be placed in a white box, according to the cleaspace area as defined on page 10.

Use of the identity in the white box requires approval from Ivey’s marketing department: marketing@ivey.ca
1.6 Full Signatures

A logo system has been developed for all the programs and campuses.

No new logo configurations should be developed without consulting Ivey’s marketing department:
marketing@ivey.ca
1.7 Unit Logos and Full Signatures

A logo system has been developed for all Ivey units.

No new logo configurations should be developed without consulting Ivey’s marketing department:
marketing@ivey.ca
1.8 Clearspace

Clearspace

The Identity must be placed within a specific isolation area. This will give the Identity presence when used in combination with other identities or graphic elements. The clear space is defined by half the width of the shield.
1.9 Minimum Sizes

Minimum Size - Logo

Minimum Size - Full Signature

Minimum Sizes

Minimum sizes of the Identities have been established to maintain legibility.

The minimum size for the Logo is 1” wide.

The minimum size for the Full Signature is 1.0625” wide.

A Simplified Shield is available for use when the shield is smaller than 8mm wide or due to reproduction concerns. Refer to page 5 for use specifications for the Simplified Shield.
1.10 Incorrect Use

These examples show improper use of the Identity. Any change from the approved Identity is not permitted.

The Identity must be used correctly to ensure that its visual impact and integrity are not diluted or compromised. Always reproduce the Identity from approved electronic artwork only.

These examples are not intended to form a complete list.

- Do not compress or distort the logo
- Do not alter the colours
- Do not place on an angle
- Do not use the previous version of the logo
- Do not place on a dark or complicated background
- Do not use a screen of the logo
- Do not place the logo within a shape
- Do not add rules or any other elements
- Do not use a drop shadow
- Do not change the relationship between the icon and the wordmark
- Do not use a different font
- Do not use the wordmark on its own
1.11 Powered by Ivey Tab

A Powered by Ivey tab has been developed for specific initiatives where the Ivey Business School is a contributing partner. The tab must accompany the primary logo in every case, appearing in a logical place on the design.

In rare cases where the tab won’t fit, please contact Ivey Marketing and Communications for guidance. It is especially important for it to be included on all external facing communications and collateral.

The Powered by Tab currently applies to:
- Morrissette Institute for Entrepreneurship
2.1 Colours

Green is an integral part of Ivey’s history and identity. Purple is integral to Western as an educational institution and community. Support colours to be used in conjunction with these 2 colours are gray, black and white as shown.

The restrained colour palette is essential to capturing and conveying the Ivey brand. Never use unapproved colours, or create a new colour palette.

Colours in PowerPoint and Word should use the RGB values shown here. Can use Hex colours for web applications.

* The PANTONE® Colour Standards is a colour matching tool used by industry for reproducing colours consistently across various printing mediums.
* Consult current PANTONE® Publication for accurate colour.

The colors shown on this page and throughout this manual have not been evaluated by PANTONE® for accuracy and may not match the PANTONE® Colour Standards.

3.1 Typography – Sans Serif

The primary font to be used is Benton Sans. Benton Sans Book is the preferred weight for body copy in publications. Benton Sans Medium and Bold should be used for heads, sub-heads and call-outs. Do not set entire documents or paragraphs in Benton Sans Medium or Bold. Benton Sans Bold should not be used for typesetting of large sections of body copy. Benton is not a standard font and there is no need for Ivey employees or students to purchase it for everyday use. Arial is an acceptable alternative to Benton (see page 17).

Benton Black should be used for large titles, covers, and heads on select collateral. It should always be in All Caps and have a tracking setting of -50. Consult with Ivey Marketing.

4.5 Email Signature

Email Signature
Ivey has created a corporate email signature to project a distinct identity and to achieve consistency in our communication. The email signature will include essential information, such as contact details and the University website address.

Staff should not change the font type, size or colour to maintain a uniform signature design and to project a more professional image in our official email correspondences. Please do not include any other images or text (e.g., quotations) in your email signature.

It is acceptable to use a program or unit logo for your email signature. Appropriately sized logos and instructions for email signatures can be found at  ivey.ca/iveybrand
