ACHIEVE MORE THAN YOU DREAMED. IN LESS TIME THAN YOU IMAGINED.

Your HBA degree is your ticket to a full Ivey MBA in only eight short months with Ivey's Accelerated MBA Program. With your HBA experience, you are exempt from the first four months of the full MBA program. The others start in March, while you come on-board in July. At the end of your eight months, you'll graduate with the same MBA degree as the full-year MBA class.

THE ACCELERATED MBA AND YOUR CAREER

Let's set the record straight. The Accelerated MBA is designed just for graduates of the Ivey HBA Program and gives you a full MBA degree in just eight months. You get credit for the work you've done as an HBA, with no repetition or duplication, and no GMAT.

Why should I come back for an Ivey MBA?

Complementing your HBA with an Ivey MBA is a career-changing move and a combination that is much sought after in market. HBA students who have completed their MBA at Ivey boast excellent placement rates (96 per cent), and exceptional career transitions (94 per cent).

How will it benefit my career?

Ivey's Accelerated MBA can boost your career trajectory – either in your current industry or in something brand new. In less than one year, your career can be on the path of your dreams. While earning your MBA, you will take charge of your career, grow your network, and gain international experience. The Accelerated MBA gives you the full power of an Ivey MBA, with the convenience of a shorter completion time.

How does the MBA classroom compare to my HBA experience?

As an HBA graduate, you already know the dynamic learning experience of the Ivey classroom. Now, with highly motivated and seasoned classmates who have broader and more extensive work experience, the discussions will be that much richer, and the learning more rewarding. Why? Because we interview every student to ensure a classroom that is a diverse mix of experience, gender, and nationality. This small, finely-tuned class size means you'll

know each individual by name, and build a lifelong network of colleagues and friends. It's no wonder *The Economist* ranks Ivey top-five globally for educational experience.[†]

Can I tailor my MBA Program to meet my career goals?

Electives can be tailored to your career focus and interests. A transformational study trip to China or South America will enrich your personal and business experiences. The smaller MBA class will open up a global network of ideas and opportunities that weren't available to you in HBA, and create a lifetime of connections that will help build and sustain your career – wherever it takes you.

When is the right time to start?

While there never seems to be a perfect time to start an MBA, right now is the time to investigate what an Ivey MBA can add to your career. It's not about your next job, it's an investment in your future earnings potential, career opportunities and an extended professional network.
