

## **Joris Myny**

Senior Vice-President, Digital Factory and Process Industries and Drives  
Siemens Canada Limited

**SIEMENS**

### **Area of responsibility**

Joris Myny is the Senior Vice President and Country Division Lead for two of Siemens Canada's divisions: Digital Factory and Process Industries and Drives. Mr. Myny is responsible for the overall strategic direction and management of these businesses in Canada, including sales, marketing and service operations within the fields of Automation, Integrated Drive Systems including Gear Units, Motion Control, Instrumentation, Industrial Control and PLM Software.

Mr. Myny began his career with Siemens in 1990 with the Automation & Drives Group in Belgium and has extensive international management experience, most recently as the Vice President, Sales Integration, Siemens Product Lifecycle Management Software Inc., headquartered in Plano, Texas. Prior to that assignment, he was the Director, Business Development, Overseas, for Automation Systems covering Asia, Australia, Near and Middle East, Africa and Latin America. In addition, Mr. Myny was also the Manager of Automation and Machine Tool business at Siemens Canada from 1998-2004.

Mr. Myny is an Electrical Engineer. He is an executive board member of the Electro-Federation Canada and chair of the 2015 EFC Scholarship Program, a scholarship initiative that encourages Canadian post-secondary students to pursue careers in the electrical, electronics, and telecommunications industries.

### **About Siemens Canada**

For more than 100 years the innovative ideas from Siemens have helped make Canada a better place. From the Atlantic to Pacific oceans, more than 4,500 employees in Canada work together to provide answers that last in the fields of electrification, automation and digitalization. Since it was federally chartered in 1912, Siemens has stood for innovation, quality, reliability and internationality. Sales for Siemens Canada in fiscal 2014 (ended September 30), were \$2.7 billion CAD. The company has 39 offices and 12 manufacturing/assembly facilities across Canada.
