In 2023, the Ivey Business School will be 100 years old. To celebrate this occasion, the institution endeavoured to temporarily modify its visual identity to include its 100 mark.

The design needed to honour Ivey's heritage and legacy, all while pointing the way forwards for future leaders. It needed to evoke inspiration for a sustainable and prosperous world, while also reflecting the school's values of integrity, inclusivity, community, and courage.

THE LOGO

Based on primal shapes and symbols of life and expansion, Ivey Business School's 100th anniversary mark represents energy, excitement, and movement.

Two intertwined cog-like shapes convey collaboration and motion. Like they're propelling each other and the world forward. Each circular shape is made up of 50 lines, totaling 100 and representing Ivey's journey thus far.

CLEAR SPACE

The minimum clear space around the logo should be equal to half of the shield's width.

When used on its own, the clear space around the 100 mark should be at least the width of the number one.

THE 100 MARK

Because of its visual complexity, the 100 mark must be slightly modified to hold its definition at smaller sizes.

It is recommended to use the provided Small version of the logo on applications that require the mark to appear at a width of about 200 pixels. The Extra Small version is recommended for applications under 80 pixels.

EXTRA SMALL

Use on all digital applications under 80 pixels.

80 pixels

SMALL

Use on all digital applications under 200 pixels.

200 pixels

REGULAR

Use on all digital applications over 200 pixels.

For placements in which the Ivey brand is treated independently, the 100 mark can be used on its own.

PATTERN

A pattern can be formed by repeating the intertwined cogs.
This pattern can be used as an accent on certain applications.

ANIMATION

Like real cogs, the movement of one circle instigates the movement of the other, ad infinitum.

INCORRECT USAGE

Do not compress or distort the logo.

Do not alter the colours.

Do not place the logo on a conflicting background.

Do not place the logo within a shape.

Do not use a drop shadow.

Do not change the relationship between the Ivey logo and the 100 mark.

Do not add other elements.

Do not place on an angle.

COLOURS

Aside from Ivey's iconic green, the 100th Anniversary identity features gradients. Created with blue and green hues, the gradients convey optimism, upwards momentum, and Ivey's environmental stewardship.
